

JHA BankAnywhereSM

Agile and Secure Cloud-Based Digital Core Solution

“Because the marketplace is rewarding digital organizations, there is a greater need to find partners who can provide the solutions that can be implemented quickly and integrated easily...sitting on the sideline is no longer an option.”

– The Financial Brand

In the digital era, consumers don't compare banks – they compare digital experiences. Digital innovations have changed what consumers expect and how they interact and transact.

With big tech, top-tier financial institutions, and fintechs offering innovative approaches to customer engagement through digital storefronts and personal user experiences, banks must respond now or be left behind. How do you remain relevant – poised to retain your existing customers, attract new ones, and grow deposits – in the highly competitive digital world?

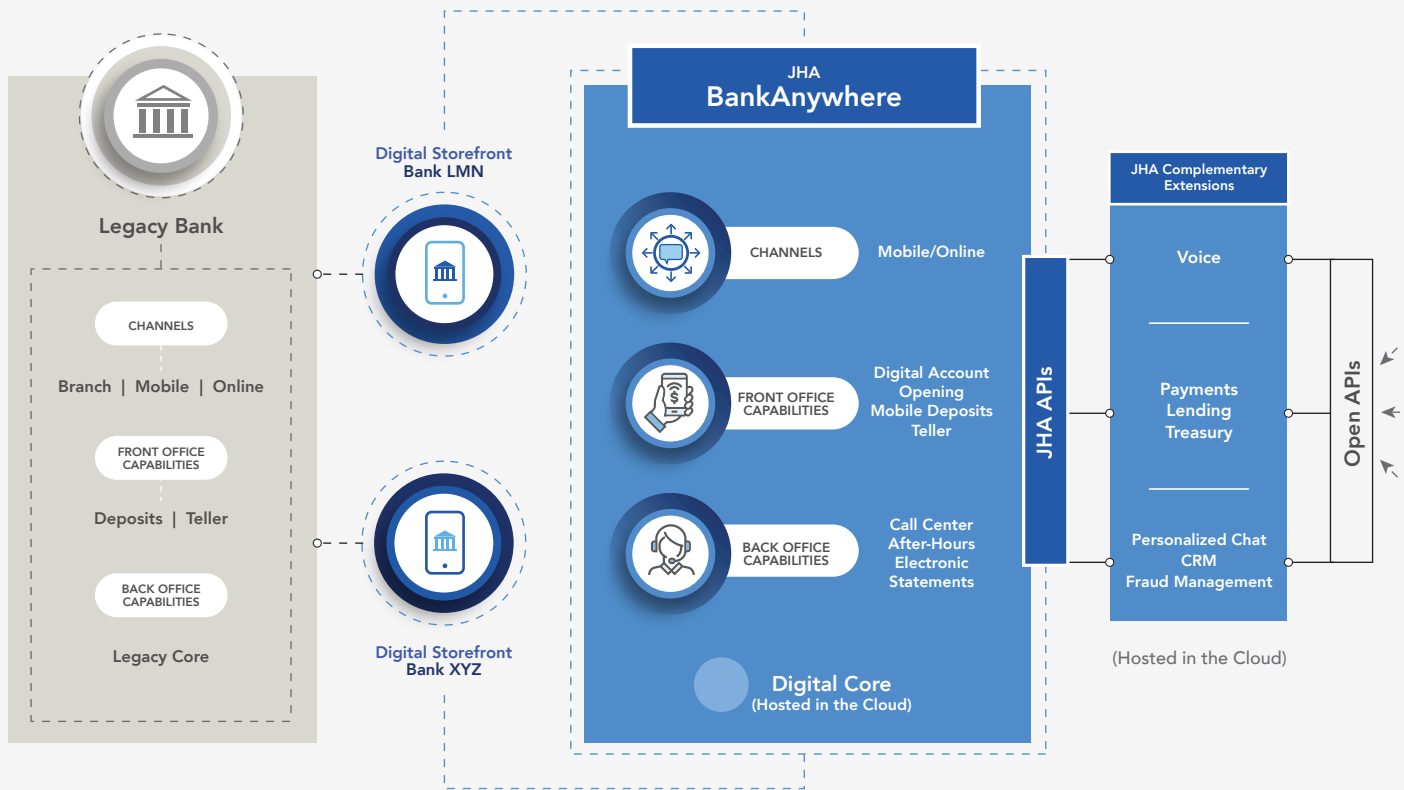

A growing number of digital banks are being launched to more aggressively and successfully compete in the digital world. By opening a digital bank, you can:

- *Provide a dedicated channel exclusively for digital-first/digital-only customers.*
- *Enable a dedicated strategy for different/new customer segments.*
- *Significantly reduce infrastructure investments and operating overhead.*
- *Enable quick, constant innovation without dependency on legacy technology and processes.*
- *Gain invaluable opportunities to experiment with the innovation that supports the digital transformation of legacy banks.*

A NEW WAY OF THINKING ABOUT BANKING

JHA BankAnywhere is a full-service, digital bank solution that enables digital-only banks to be quickly launched with industry-leading functionality and a customer experience that is useful, appropriately simple, relevant, and seamless.

When you choose JHA BankAnywhere, you'll gain a fully featured solution that can integrate industry-leading add-on modules and complementary solutions from Jack Henry, and virtually unlimited third-party and fintech solutions – including those hosted in the public cloud.

POSITION YOUR BANK FOR THE FUTURE

Every financial institution is now challenged to balance digital transformation, payments modernization, and unprecedented change. You must balance innovation with regulation, defend your market position from new industry entrants and disruptors, and distinguish digital hype from reality. JHA BankAnywhere will support your digital reinvention and empower you to overcome new competitors and unforeseen industry plot twists.
