

PowerOn[®]

Puts the Power of Customization and
Integration in Your Hands

This utility enables banks to customize and extend Jack Henry products, allowing rapid response to evolving business requirements, reduced operating costs, increased productivity, decreased errors, and easy adaptation to user preferences.

jack henry Banking[®]
A DIVISION OF JACK HENRY & ASSOCIATES INC[®]

Would you like to modify your Jack Henry Banking system to meet the unique needs of your bank?

BUSINESS VALUE

- Save Money
- Improve Operations
- Enhance Service

COMPATIBILITY

- SilverLake System®
- CIF 20/20®

CREATE YOUR OWN TOOLS, SCREENS, AND APPLICATIONS

PowerOn puts your bank in the driver's seat by enabling IT staff to develop tools and automate manual tasks. You can design the look and feel of screens using scripting languages and HTML. PowerOn gives you the ability to create your own enhancements, develop interfaces which extend your Jack Henry solution to third-party systems, and to integrate data from multiple sources.

The goal is to give banks maximum freedom to adapt our systems to their requirements. Software developer kits (SDKs) are already available for SilverLake System® and CIF 20/20®. Additional Jack Henry Banking® products planning PowerOn functionality include Core Director® and *jha*Enterprise Workflow™.

TAKE ADVANTAGE OF PREBUILT SOLUTIONS

Don't have an SDK or the skillset to write your own customizations? Want to see if someone has already created what you need? The JHA Marketplace™ lets you to view and download any prebuilt solutions that have been created by Jack Henry, vendors, or other banks.

YOU ARE ONLY LIMITED BY YOUR IMAGINATION ...

Jack Henry realizes that you know the particular needs of your staff and customers better than anyone. This product lets you create custom tools, forms, email, and other customer correspondence on demand. You can use PowerOn to streamline the input and processing of data from external sources. Discover what unlimited customization of our systems can do for your institution.

WHAT IT DOES:

- Enables virtually unlimited customization.
