

Synergy AdvancedPDF™

Fast and Accurate OCR Processing

Store your records and important documents as compact, easy-to-read PDFs. Jack Henry Banking®, in partnership with CVISION Technologies, Inc., is offering the technology to make PDFs generated by optical character recognition (OCR) that are accurate, searchable, and look just like the original documents.

Synergy AdvancedPDF

Fast and Accurate OCR Processing

BUSINESS VALUE

- Save Money
- Improve Operations

COMPATIBILITY

- SilverLake System®
- CIF 20/20®
- Core Director®

Store your records and important documents as compact, easy-to-read PDFs. Jack Henry Banking®, in partnership with CVISION Technologies, Inc., is offering the technology to make very accurate, searchable OCR-generated PDFs that look just like the original documents.

IT WORKS LIKE THIS

Synergy AdvancedPDF combines image processing, near-real-time OCR, advanced compression, Bates-stamping, web-optimization, batch multi-threading, and encryption all in one step. This product is an add-on module for the Synergy Enterprise Content Management™ system.

OCR FEATURES

- Processes paper-based documents in near real-time.
 - Provides faster scanning and more accurate recognition compared to leading OCR products.
 - Creates PDF files that are fully searchable.
 - Detects/removes blank pages.
 - Creates files with date stamps, Bates stamps, watermarks, and PDF accessibility tagging.

COMPRESSION FEATURES

- Compresses typical black and white scans by a factor of 5x – 10x and color scans by a factor of 10x – 100x.
- This small file size is web-friendly, uses less memory, and is easily emailed and accessed.

Among other Synergy AdvancedPDF benefits is SharePoint® optimization. It integrates with SharePoint, easily accessing, compressing, and placing files within the structure of a SharePoint site. It can protect files from printing or viewing with 128-bit PDF encryption.

Get control of documents, reduce staff time, and shrink your storage requirements.

WHAT IT DOES:

- Performs accurate OCR document scanning.
- Converts images to highly searchable PDFs that can be reviewed with any PDF viewer.
- Compresses files by up to 100x.
- Creates files that look like the original document.
- Maximizes office multi-function printers with near-real-time processing.
- Front-end to Synergy Enterprise Content Management™ and SharePoint®.

WHAT IT DOES FOR ME:

- Provides rapid access and transmission of files.
- Enables rapid document searches.
- Ensures that all PDFs are searchable.
- Reduces document storage requirements.
